<b>Number of Brothers</b>	<b>Elder</b>	0	<b>Younger</b>	0
<b>Number of Sisters</b>	<b>Elder</b>	0	<b>Younger</b>	2

### 3. Details of the Child

- Rashmi Shehana is a 08 years old girl and she is the oldest child in the family of two children. She has two younger sisters.
- Rashmi is from a very deserving family. Her father has left the family leaving the children with the poor mother.
- Mother does not have a permanent job and does casual work in the cinnamon fields. The income she makes is not sufficient for a family of three children.
- Mother lives with her parents and she has to take care of them as well.
- Therefore, considering the poor financial background of the family, Rashmi was directed to a child development center for her future well-being
- The child development center where she was living was closed down by the Probation Department. Rashmi was transferred to Children's Corner Orphanage, Meetiyagoda in January 2022 by the Department of Probation and Childcare for better education, protection and wellbeing.

Rashmi continues her studies staying at Children's Corner Orphanage. She is in Grade 03, at Wijayaba Primary School
